

Forklift Laser Guided System

Model No. SE-01-015 LGS

Product Description:

Enhance warehouse safety and productivity while minimizing product damage through the implementation of the Sharpeagle's Laser Guidance System. This innovative system features an adjustable fan-shaped laser beam that extends from the forks, clearly indicating the precise position of the forks. By utilizing the Laser-Guide, operators can ensure accurate alignment and positioning, reducing the risk of accidents and improving overall efficiency in the warehouse environment.

Product Features:

- ☐ Enhanced safety with laser beam fork position indication.
- ☐ Increased productivity by eliminating guesswork and multiple adjustments.
- ☐ Reduced transportation time through precise fork positioning.
- ☐ Compatible with Class 1, 2, 3, and 4 applications.
- ☐ Long-lasting performance with 50-70 hours of use per recharge.
- ☐ Complies with safety standards (class IIB) and backed by a 1-year warranty.

Product Specifications:

Suitable for Class 1,2,3 and 4	
Remote control switch	
Laser Light/Battery	
Type	Red laser alignment system
Power Source	Rechargeable battery
Full Recharge time	8 Hours
Use time per recharge	50-70 hours
Laser Wavelength	650nm (red)
Laser power	100mw
Laser safety class	IIB
Warranty	1year
