

Safe Zone Corner Guard

Model No. SE-01-017

Product Description:

Introducing SharpEagle Safe Zone Corner Guard an innovative solution designed to enhance safety in blind corners. This device provides visual and audio warnings triggered when motion is detected on both sides of the corner. Its easy snap-on installation and customizable audio settings make it the perfect safeguard for blind corners. Easy to install, self-powered, highly visible, and reliable – it's your comprehensive solution for collision detection and avoidance. Stay alert, stay safe!

Audio warning:

- ☐ Loud enough to be heard within the corner zone; pitch sets it apart from other background noise
- ☐ Volume can be adjusted (high/low) or turned off.
- ☐ Sounds ONLY when motion is detected on both sides of the corner
- ☐ Synchronized with light flash to reinforce the warning

Visual warning:

- ☐ Flashes ONLY when motion is detected on both sides of the corner
- ☐ LED lights are angled; increasing light's intensity and optimising visibility
- ☐ The beam is focused for best visibility and the concentrated lens increases the intensity

Product Features:

- ☐ Workplace Safety Enhancement
- ☐ Optimal Sensor and Warning Light Placement
- ☐ Low Battery Indication
- ☐ Secure and Stable Mounting
- ☐ Plug-and-Play Functionality

Product Specifications
