Forklift Reversing Camera & Sensor System(RC-01)

Product Description:

Introducing the Forklift Reversing Camera & Sensor System (RC-01), featuring one of the smallest 24GHz FMCW radar sensors available, combined with a 1080P Full HD camera for enhanced visibility and collision prevention during reversing operations.

Designed for forklifts and MHE's, the system detects pedestrians and obstacles in blind spots and provides instant visual and audible alerts to improve operator awareness and workplace safety.

Its rugged IP69K waterproof construction ensures reliable performance in warehouses, yards, ports, and other demanding industrial environments.

Product Features:

- ❑ Combines radar sensor and 1080P full HD camera for revolutionary safety technology.
- ❑ Offers visual and audible warning signals, enhancing workplace awareness.
- ❑ Utilizes 24GHz FMCW radar technology for accurate detection.
- ❑ Waterproof and rugged design ensures durability in any weather.
- ❑ Directional sensing reduces false alarms for improved accuracy.
- ❑ Night vision capabilities with IR LED and CDS sensor for low-light visibility.

Product Specifications:

Camera Spec	
Image Sensor	1/2.9" SONY Progressive Scan CMOS Image Sensor
Total Pixels	2000(H) X 1121(V)
Number of effective pixels	1984(H) X 1105(V) , 2.19MP
Video Signal System	AHD , Internal , Option (CVBS ,960H)
Max, Video Resolution	1080p@30fps/25fps
Minimum Illumination	0Lux (With IR LED) , 6Lux : LED ON , 25Lux : LED OFF
Lens	F2.0 , 2.9mm 140°

Radar Spec	
Transmit frequency	24.05 ~ 24.20GHz (EU, FCC, KC)
Modulation	FMCW (Frequency Modulated Continuous Wave)
Detection time	Under 200ms
Communication	RS-485
Power Input range	12V ~ 30V
Operating Temp	-30°C ~ 85°C
Storage Temp	-40°C ~ +85°C
Size	117 x 59 x 72.5 mm
